

## Global Fund Grant Support for Indoor Residual Spraying

AFM reviewed Global Fund malaria grant documents for all African countries available at <http://www.theglobalfund.org/en/> to assess support for indoor residual spraying (IRS) in each of the seven funding rounds. ✓ indicates support for IRS in some capacity for the country and round listed. If the Original Proposal was the only document available, the assessment was based on requested support. If follow-up documents were available (i.e. Program Grant Agreement, Grant Performance Report, Grant Score Card), the assessment was based on information in those documents pertaining to IRS.

Country	Round 1	Round 2	Round 3	Round 4	Round 5	Round 6	Round 7
Angola			✓				
Burundi		✓					
Chad							✓
Djibouti						✓	
Equatorial Guinea					✓		
Eritrea						✓	
Ethiopia		✓			✓		
Kenya				✓			
Liberia			✓				
LSDI*		✓			✓		
Madagascar							✓
Mauritania						✓	
Mozambique		✓					
Namibia		✓				✓	
Northern Sudan		✓					
Sao Tome & Principe							✓
Somalia						✓	
Swaziland		✓					
Uganda		✓					
Zambia	✓			✓			
Zimbabwe	✓						
<b>Number of Grants Supporting IRS</b>	<b>2</b>	<b>8</b>	<b>2</b>	<b>2</b>	<b>3</b>	<b>5</b>	<b>3</b>
<b>Total Number of Grants for Malaria</b>	<b>8</b>	<b>19</b>	<b>10</b>	<b>16</b>	<b>8</b>	<b>12</b>	<b>16</b>

\*The Lubombo Spatial Development Initiative, or LSDI, is a comprehensive regional malaria control program including Mozambique, South Africa and Swaziland: <http://www.malaria.org.za/lodi/home.html>
